MISSION AND EVANGELISM

This course explores what these terms actually mean (they're not the same!) and considers some of the many ways in which we can join in with God's work in the world, whether through transformation of culture or environment, running Alpha and Messy Church, or simply sharing our faith with our neighbours. Personal and parish-wide strategies will be considered, making this course of interest to anyone wanting to serve God in the world.

Autumn 2018

A selection of courses and activities

Proverbs 18:1

Whoever wilfully separates and isolates themselves seeks their own desire and an excuse to mess with wise and sound judgment.

Don't isolate yourself Or let yourself be isolated

The Autumn small group programme is here! There is something for all tastes, needs and stages. Some of these groups have not happened before and others are quite regular. Whatever one you choose, you will be welcome as a new person and will not be expected to know what you are doing! In fact, the main idea behind the termly group scheme is for us to make new friends and try new activities.

To sign up, please make contact with the group organiser. They will be able to give you more details about the activity, costs and expectations. They will also be able to say how full the group is and how many new people have expressed an interest.

Make the most of the opportunities on offer this Autumn - new friends, skills and experiences await you!
